

SHEENLAC

POLYURETHANE (PU) BASED

Polyurethane paints are made exclusively for their use as topcoats since they provide excellent UV resistance and enhanced durability. They offer a high-gloss finish and weather resistance properties, making them the most sought-after topcoat.

PRODUCT PORTFOLIO

HIGH GLOSS PU FINISH

It is a two-pack polyurethane top coat finish providing Excellent gloss and exterior durability.

2K PU PRIMER

It is a two-pack polyurethane primer for Aluminium, Galvanized and Stainless Steel substrates.

2K WB FINISH

It is a two-pack water based polyurethane paint for direct application over Concrete, Wood, Steel, and selected Polymeric surfaces.

PU MATT FINISH

It is a two-pack polyurethane top coat finish providing uniform Matt Finish and Exterior Durability.

BENEFITS

EPOXY BASED

EPOXY BASED

Epoxies are one of the most adaptable and widely sold high performance polymers in the world, commonly used since the 1930s. Sheenlac Epoxies provide tough and protective coatings with excellent hardness. They also provide high coverage with outstanding application properties.

PRODUCT PORTFOLIO

RED OXIDE PRIMER

It is a two-pack Epoxy Primer with anti-corrosive pigments.

ZINC RICH PRIMER

It is a two-component metallic Zinc based anti-corrosive primer used in aggressive environments.

PRIMER SURFACER

It is a two-pack Epoxy Primer Surfacers Grey that has great sanding characteristics.

GLOSSY FINISH / MATT FINISH

It is a two-pack top coat finish with abrasion resistance and has good chemical resistance to acids, alkali and solvents.

ZINC PHOSPHATE PRIMER

It is a 2K Epoxy Primer with anticorrosive pigments and comes as a special fast-drying primer.

MICACEOUS IRON OXIDE PRIMER

It is a two-component micaceous Iron Oxide pigmented Primer cum Intermediate - ideal for maintenance painting.

SURFACE TOLERANT PRIMER/ TOPCOAT

It is a two-component high build surface tolerant primer cum finish used on galvanized surface, steel and aluminium etc.

DTM / MATT FINISH / GLOSSY

It is a 2K Primer cum Topcoat finish having good Anti-Corrosive properties.

**EXCELLENT
ADHESION**

**EXCELLENT
ANTI-CORROSIVE
PROPERTIES**

ALKYD BASED

An alkyd is a polyester modified by the addition of fatty acids and other components. Our products produce high bonding films that ensure smooth topcoats. They are most commonly used on surfaces where fast-drying is essential.

PRODUCT PORTFOLIO

OXIDE PRIMER - RED

It is a fine quality, rust-resistant single-pack primer ideal for use on ferrous and steel surfaces.

ZINC YELLOW PRIMER

It is an anti-corrosive zinc chromate primer for priming ferrous and steel surfaces.

ENAMEL - GLOSSY

It is a single-pack high gloss finish with excellent film integrity and built-in toughness.

ENAMEL - SEMI GLOSSY

It is a single-pack semi-gloss finish with excellent film integrity giving ultra-smooth appearance.

QD TOP COAT

It is a single-pack fast drying top coat and comes in both glossy and matt finish.

AIR DRYING QD PRIMER

It is a one-component fast drying primer with Anti-corrosive pigments.

QD PRIMER CUM TOP COAT

It is a single-pack fast air-drying enamel designed as a general purpose direct to metal coating.

PU ALKYD GLOSSY FINISH

It is a single-pack system based on unique blend of Polyurethane alkyds giving a glossy finish.

JENSON & NICHOLSON

DECORATIVE PAINTS

DECORATIVE PAINTS

In our decorative paints and coatings segment, we provide Best-in-Class products with High Quality Formulations. Through Jenson and Nicholson, we present an exclusive range of Interior and Exterior coatings along with gleaming textures. They promise to galvanize our customers with exceptional innovation and expertise.

PRODUCT PORTFOLIO

EXTERIOR

- Safeguard Optima Exterior Emulsion
- Safeguard Acrylic Exterior Emulsion
- Décor Exterior Plastic Emulsion

INTERIOR

- Special Effects Emulsion
- Robbialac Health Protect + Lotus Leaf
- Robbialac Super Acrylic Plastic Emulsion
- Rainbow Acrylic Emulsion

PRO CARE

PRO CARE

D A P S

The construction Industry has seen an increased demand for innovative solutions which has led to unique architectural and structural solutions with inspiring results. Coatings technology is an example of an integrated approach which is increasingly being used as a solution to arrive at optimized, economic and sustainable buildings.

Sheenlac ProCare is an exclusive platform conceptualized for customers to ease their access towards the coating solutions for construction projects pertaining to Residential, Commercial, Government and Repainting societies.

Aim of ProCare in relation to Buildings & Structures segment is to constantly improve the scope of innovative solutions that will give unmatched benefits to our customers. We aim to provide the best solutions and consultation services in the field of Decorative and Industrial products.
