

N.C. Wood Filler

Sheenlac N.C. Wood filler is Nitro Cellulose based which fills grains and pores gently and leaves a smooth and transparent finish over wooden surfaces. It's a Suitable Filler for N.C, Melamine and PU topcoats.

PRODUCT BENEFITS:

TRANSPARENCY: its transparent nature fills up pores without affecting the natural beauty of wooden surfaces.

TINTABLE : product can be mixed with stains to give you the colour of your choice

FAST DRYING: the product is fast drying and sands in just one hour, thus quickly preparing the surface for an overcoat.
