

Wood Primer White / Pink

Sheenlac Wood Primer is a solvent based undercoat that promises the perfect surface preparation for wood (both white and pink primer) & masonry (only white primer) surfaces. It hides every surface stain, mark or discoloration. Glossy, semi-glossy and flat oil finishes may be applied directly onto this primer coated surface. It can be used for both interior and exterior wooden surfaces.

PRODUCT BENEFITS:

Excellent Sealing Capacity: Sheenlac wood Primer have excellent sealing property and prevent moisture absorption in underlying wooden surface.

Performance: Sheenlac wood fillers are quick drying and have excellent top coat holding capacity, thus increasing the durability of top coat.
